

# BioSYN+

A PROVEN FORMULATION, TESTED UNDER OUR CONDITIONS FOR THREE YEARS

Increase your average yields in corn with BioSYN+ biostimulant

↑ 4.5% or ↑ 8.5 bu/ac

Increase your net income\*  
(based on a corn price of \$6.20/bu)

↑ \$42.70/ac \*Including the cost of the product

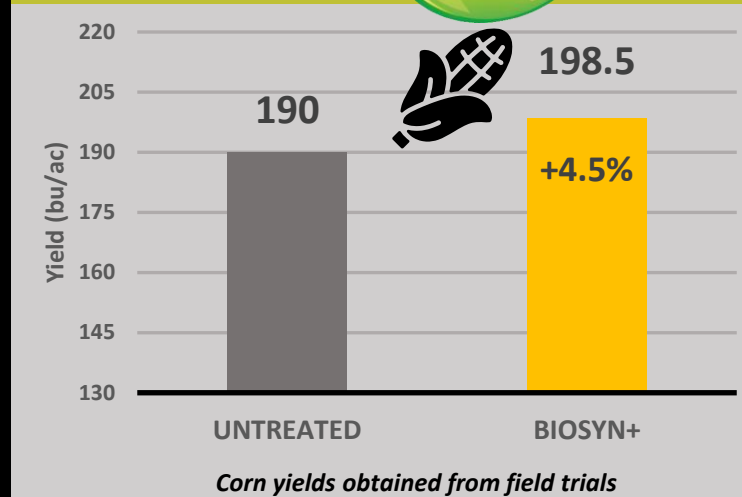

Example for a farm with 250 ac in corn

|                         |                                |
|-------------------------|--------------------------------|
| Initial yield           | 190 bu/ac                      |
| Yield with Biosyn+      | 190 + 4.5% = 198.5 bu/ac       |
| Additional yield        | 8.5 bu X 250 ac = 2125 bu      |
| Additional gross income | 2125 bu X \$6.20/bu = \$13 175 |
| Additional net income   | \$10 675                       |

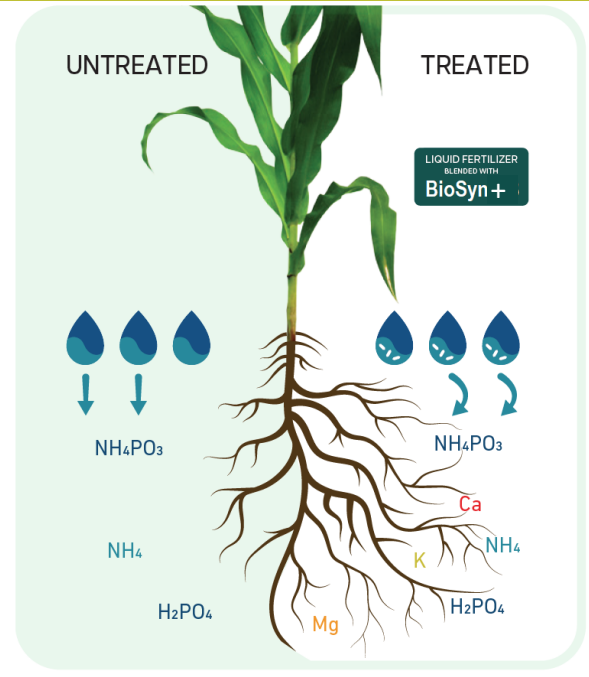

GUARANTEE UNIFORM DISTRIBUTION AND COVERAGE

It is mixed with our superior quality liquid fertilizers

Ease of application – no special storage conditions

## BioSYN+ improves

- Root development
- Plant vigor
- Yield potential and harvest quality
- Return on fertilizer investment
